Introduction

The meeting commenced at 10.15 am at Citadel, Cathedral Square, Victoria Gozo. The Ministry for Gozo representatives gave an overview of the tender and briefly described the project. Attendance records were filled by the prospective bidders.

Arising Questions

Question 1: Where will the pump be installed?
Answer 1: The submersible pump shall be installed in the Citadel’s cistern, which is located under the obelisk.

Question 2: What pipes shall be used?
Answer 2: All pipes shall be made from high-density polyethylene (HDPE) rated at PN16 with an outer diameter of 63 mm and an inner diameter of 45.8 mm.

Question 3: Where shall the quick coupling valves be installed?
Answer 3: The quick coupling valves shall be installed in a manhole at each point as indicated in the drawing.

Question 4: Does every plant require a watering point?
Answer 4: No. Every area should have a quick coupling valve which shall be used to manually water several plants in that specific area as shown in Drawing 2 – Location of Watering Points.

The site visit was concluded at 10.45 a.m.
