8th October 2018

REFERENCE NUMBER: MGOZ/MPU T 64/2018

Tender for the procurement and installation of automated barriers and electronic information boards at the Xewkija Park & Ride Facility, Gozo

Clarification No. 2

Reference is made to the above-tender, for which deadline for submission of offers is the 12th October 2018 at 09.30am.

Question 1: It is specified that the facility requires barriers, but we did not notice a situation in which the barriers would deny entry to a vehicle, in which case, please clarify why barriers are indeed required.

Answer 1: **In line with the technical specifications, barriers are required to ensure controlled vehicular entry and exit to the planned Park and Ride facility. Barriers are indeed required in order to stop incoming flow of cars when the parking is full.**

Question 2: Please clarify whether there will be a control room on site for the provision of computer hardware, or if not, where this provision will be made. Please also confirm that this control room will have both power and data (internet) access.

Answer 2: **The Contracting Authority shall indicate to the contractor where the computer hardware shall be installed on site. As stated in Section 4 – Technical Specifications power and internet connections shall be provided by the Contracting Authority.**

All other tender documents, conditions and requirements, which are not superseded by this Clarification, remain in place.
