Tender for the Provision of Sick Leave Verification Services to the Ministry for Gozo

Q1: Dear Sir,

We have read your reply that you are not in a position to provide the weekly number of visits since this varies according to the exigencies of the various Contracting Authorities within the same Ministry.

What we are asking for is an estimate, based on requests in previous years, since we need this info to estimate workforce required to carry out this project. To be practical - we need to know whether this will be 3 a week or 300 per week in order to work out how many doctors need to be on call per week.

A1: From statistical information covering the previous years, the amount of visits/sick-leave verifications varied from 1 to 2 verifications per week.
