

22nd May 2018

REFERENCE NUMBER: MGOZ/MPU/ T 26/2018

Tender for the Supply and Delivery of Waste Bins, Smart Sensors and the Platform for Sensor Device Connectivity in Connection with the Consume-Less Project funded through the INTERREG MED PROGRAMME

Clarification No. 1

- Q1) We are requesting whether it would be acceptable to propose the supply of bins made of sheet metal powder coated finish instead of plastic.
- A1) As per Technical Specifications in Tender Document, the bins should be made of plastic. Only items compliant to the technical specifications in tender document will be considered.
- Q2) Kindly clarify how many of such dual compartment outdoor bins contractor should supply.
- A2) As per the Bill of Quantities for Lot 1, the required quantity is 60 bins.
- Q3) The intern of the hood should have enough space to install a fill-level sensor with the dimensions not less than 150x130x50mm. This is needed so that the contracting authority can install a fill-level sensor. Fill-level sensors will be provided and installed by the Contracting Authority;
Question: Who is to provide LOT2 in the tender, Contractor or Contracting Authority?
- A4) This tender is in Lots where a bidder can bid for one lot only or for both lots. The lots will be evaluated separately with the successful bidder of Lot 2 will be contracted to provide the sensors.
