MINISTRY FOR GOZO
HEAD OFFICE DG OPERATIONS, ST. FRANCIS
SQUARE,
IR-RABAT, GOZO, MALTA

14th December 2020

REFERENCE NUMBER: MGOZ/MPU T 89/2020

Framework agreement for the supply and delivery of signs to the Maintenance and Restoration Directorate, Ministry for Gozo

Clarification No. 2

Site visit minutes

Date and time: Wednesday 9th December 2020 at 10:00hrs
Venue: St. Anna Chapel, Dwejra Bay

The scope of the project was explained to the prospective bidders present for the meeting and they were later shown the site where installations are to take place.

Those present were invited to make questions and the following were asked and replied:

Question 1: Is the 2000Ah battery bank capacity designed for a 12Vdc system?

Answer 1: The 2000Ah battery bank capacity was designed on a 12Vdc battery bank system as an indicative capacity. As specified in the technical specifications, the bidders can propose a system with higher battery bank voltages and therefore the battery bank capacity shall therefore be equivalent to that particular higher voltage level (i.e. minimum of 980Ah battery bank capacity equivalent to a 24Vdc system & minimum of 490Ah battery bank capacity equivalent to a 48Vdc system).

All other tender documents, conditions and requirements, which are not superseded by this Clarification, remain in place.
