FRAMEWORK AGREEMENT FOR THE TIPPING AND DISPOSAL OF MIXED CONSTRUCTION, CONSTRUCTION AND EXCAVATION WASTE FROM GOZO ONLY USING ENVIRONMENTALLY FRIENDLY TRANSPORT SERVICES

Clarification No. 3

Clarifications

1. The Contracting Authority would like to clarify that the payment for waste disposed will be per tonne as per published financial bid form; that is each trip of waste is weighed at tipping/disposal site before and after tipping to determine quantity of waste disposed in tonnes. Then, payment to contractor will be determined by multiplying the awarded price/rate per tonne by the quantity in tonnes.

In view of this, article 26.1 of the Special Conditions should read: 'Within five (5) working days of the end of each month, the contractor is to submit an invoice for services rendered in the previous month. Invoice is to include a list containing full details as specified in section 3 of this tender document of each service rendered together with corresponding quantities and any such other details and documentation that the Contracting Authority may deem necessary. Such a list is also to be forwarded electronically.'

It is also being clarified that the scope of this tender is limited to the tipping/disposal of mixed construction, construction and excavation waste from Gozo. The loading and carting to contractor's dumping site will be the responsibility of the contracting authority. Moreover, as per clause 12 of the Terms of Reference, 'The contractor shall be responsible for the waste in the state it is received, disposed of, and transferred to his possession on site (of disposal). The contractor by virtue of the act of issuing a disposal certificate, accepts responsibility for this waste, and confirms that the contents are compliant.'

2. Bidders are being informed that the tender submission deadline is being extended and the following timetable supersedes the one published in the tender document and in previous clarification notes:
