2. The following table supersedes the one published in Clause 6.1.1A of Section 3 in the published tender document. It is therefore being clarified that the requirements for the key experts are as follows:

Key Experts

Key Expert 1	Team Leader
Role	Team Leader who will be responsible for all project management in accordance with the contract. S/he will also act as the main contact point between the Contracting Authority, the Service Provider's project team forming part of this contact, other project Contractors and service providers (who will be engaged separately by the Contracting Authority), and stakeholders.
Qualification/s required	Minimum of Malta Qualification Framework [MQF] 6 or equivalent in Project Management or in an Engineering / Architecture field.
Minimum experience	At least five (5) years professional experience.
Reference projects	Two (2) successfully completed consultancy projects, related to the development of infrastructure with a budget of at least a cumulative works value of €200,000 (excl. VAT), within the last five (5) years being 2017-2021.
Key Expert 2	Architect and Civil Engineer (Perit)
Roles	To lead the permit application process and prepare the technical specifications (including drawings) of the works tender. S/he shall also be responsible for the certification of works and the issuance of the provisional as well as the final acceptance certificates.
Qualification/s required	as per Chapter 390 Periti Act, holding a valid warrant issued by the Periti Warranting Board enabling him/her to practice locally.
Minimum experience	At least five (5) years professional experience as a Perit in road reconstruction and/or building.
Reference projects	Two (2) successfully completed road reconstruction projects and/or road building with a budget of at least a cumulative works value of €200,000 (excl. VAT), within the last five (5) years being 2017-2021.
Key Expert 3	Mechanical Engineer
Roles	To perform the Mechanical Engineer function during the pre-construction, construction and post construction stages of the project
Qualification/s required	as per Chapter 321 Engineering Profession Act, holding a valid warrant in the mechanical field issued by the Engineering Profession Board enabling him/her to practice locally.
Minimum experience	At least five (5) years professional experience.
Reference Projects	Two (2) successfully completed road reconstruction projects with a budget of at least a cumulative works value of €200,000 (excl. VAT), within the last five (5) years being 2017-2021.
Key Expert 4	Economist
Roles Description	Main responsibilities include: a) Financial and economic assessments, including cost estimations.

	<p>b) Financial and economic cost-benefit analysis for the project (also simplified analyses for assessment of options).</p> <p>c) Sensitivity and risk assessments for CBA.</p> <p>d) Design and development of necessary modelling tools.</p>
Qualification/s required	Minimum of MQF 6 'or equivalent' in Economics
Minimum experience	General professional experience of at least five (5) years as an economist.
Reference projects	Two (2) successfully completed CBAs with a cumulative works value of not less than €200,000 (excl. VAT), within the last five (5) years being 2017-2021.
Key Expert 5	Construction Project Manager
Roles	The Project Manager shall be able to manage and co-ordinate the Works Contract in order to meet all the objectives at the right quality and time with no additional costs to the Contracting Authority. The Project Manager is intended to assume the role of the FIDIC Engineer or similar. He is to take decisions, make determinations and issue instructions and is to ensure that the Works Contractor delivers the required objectives of his contract.
Qualification/s required	Minimum of Malta Qualification Framework [MQF] 6 or equivalent in Project Management, specialising in Construction Management
Minimum experience	At least five (5) years professional experience in road reconstruction and/or road building.
Reference projects	Two (2) successfully completed road reconstruction projects, with a budget of at least a cumulative works value of €200,000 (excl. VAT), within the last five (5) years, being 2017-2021.
Key Expert 6	Geotechnical Engineer or Engineering Geologist
Roles	
Qualification/s required	Minimum of Malta Qualification Framework [MQF] 6 or equivalent in Geotechnical Engineering
Minimum experience	General Professional Experience of a minimum of five (5) years as a Geotechnical Engineer or Engineering Geologist.
