## **MH • Medical and Health Department 1893 – 1979**

The Medical and Health department deposits include an important collection of building plans and permits issued in Gozo from around 1893 to 1979. It must be noted that the department ceased taking cognition of these affairs after that date, when they become the responsibility of the PAPB, the Planning Area Permits Board up to November 1992, when they became the responsibility of the MEPA, the Malta Environment and Planning Authority.
